The Giamarese family has raised fruits and vegetables on their farm since 1941. Jim and Sue are third generation at this location in East Brunswick. They have worked hard over the years, and have been recognized locally and nationally with many awards. They would like to share their farm with the next generation, and to teach children an appreciation for the land and agriculture.

Your half hour (approximate) Educational Hayride tour consists of Farmer Jim making 4-5 stops around the farm to explain how certain fruits and vegetables are grown, including hands on experience when possible. One stop will be with the farm animals, including horses, pigs, turkeys, chickens, ducks and swans. The children will experience picking an apple from the tree and/or a pumpkin from the pumpkin patch (one sugar pumpkin for each paid child, approximately 2-5 pounds). Additional pumpkins may be purchased by weight in the Farm Market. At the conclusion of the tour, each child will receive an educational coloring/workbook.

Priority is given to all the children so they can fill the wagon first. We reserve the right to combine smaller groups together, but will try not to, as we know groups would like to stay together.

At the Farm Market, we have additional fruits, vegetables, baked goods, jam, ice cream, mums, cornstalks, straw bales, Indian corn, gourds and other fall decorations. Farmers Jim, Sue and the Staff of Giamarese Farm look forward to seeing you on a fall tour. Please fill out the form below and fax or mail it back to reserve your tour and Anne will contact you.
